Asuris ClaritySM for Individuals and Families

Getting the right fit is important, whether you're talking about contact lenses, shoes, or the perfect pair of jeans. It's also true of health coverage. You wouldn't want someone else's health plan—one that costs too much or doesn't meet your needs.

For something as important as your health, you want coverage that is right for you—something that fits you and your family.

Asuris Clarity is that kind of health plan. It's not complicated. And it's uniquely affordable and full of value.

A health plan that's simple to choose and to use

Asuris Clarity is a series of plans that are innovative in their simplicity. They're easy to use and to understand.

First, you pick one of three available coverage levels:

- Clarity 50 (50% coverage)
- Clarity 70 (70% coverage)
- Clarity 80 (80% coverage)

Then you choose from the available deductible options to create the plan that works best for you and your family.

Seeing a doctor is also easy. You don't need a primary care provider or referrals. And you can choose from almost 22,000 providers in our service area.
