

Asuris TruAdvantage (PPO)

2010 Evidence of Coverage Addendum

At the top of page 24, there is a title called "Inpatient Care". This title is misplaced. It should be following the box that says Out-of-pocket maximum and before the box that says Inpatient Hospital Care.

Although not listed in this Evidence of Coverage, Asuris TruAdvantage does cover both the standard and rapid screening HIV tests. There are no limitations or restrictions for this voluntary testing. There are also no copays or coinsurance.

Please keep this addendum with your Evidence of Coverage for easy reference.
