Benefits provided when member leaves state of residence Home health and hospice care (per contract guidelines)	Other
Inpatient care outside the contracted service area	Other
Neurodevelopmental therapy	Other
Skilled nursing facility (per contract guidelines)	Other
Selected drugs on Regence formulary	Pharmacy
Cochlear implants	Surgery
Surgical services related to TMJ	Surgery
Cord blood as a source of stem cells	Transplants
Covered human organ and tissue transplants	Transplants
Heart transplant	Transplants
Heart-lung transplant	Transplants
High dose chemotherapy and allogenic stem cell support for genetic diseases and acquired anemias	Transplants
High dose chemotherapy and allogenic stem cell support for myelodysplastic disease	Transplants
High dose chemotherapy and autologous stem cell support for autoimmune diseases, including multiple sclerosis	Transplants
High dose chemotherapy with hematopoietic stem cell support (autologous bone marrow transplant)	Transplants
High dose chemotherapy with hematopoietic stem cell support as a treatment of germ cell tumors	Transplants
High dose chemotherapy with hematopoietic stem cell as a treatment of acute lymphocytic leukemia	Transplants
High dose chemotherapy with hematopoietic stem cell support for acute myelogenous leukemia	Transplants
High dose chemotherapy with hematopoietic stem cell support for breast cancer	Transplants
High dose chemotherapy with hematopoietic stem cell support for chronic lymphocytic leukemia and small lymphocytic lymphoma	Transplants
High dose chemotherapy with hematopoietic stem cell support for epithelial ovarian cancer	Transplants
High dose chemotherapy with hematopoietic stem cell support for Hodgkin's disease	Transplants
High dose chemotherapy with hematopoietic stem cell support for malignant astrocytomas and gliomas	Transplants
High dose chemotherapy with hematopoietic stem cell support for miscellaneous solid tumors in adults	Transplants
High dose chemotherapy with hematopoietic stem cell support for non Hodgkin's lymphomas	Transplants
High dose chemotherapy with hematopoietic stem cell support for primitive neuroectodermal tumors (PNET) and ependyoma	Transplants
High dose chemotherapy with hematopoietic stem cell support for solid tumors of childhood	Transplants
High dose chemotherapy with hematopoietic stem cell support for the treatment of multiple myeloma	Transplants
Islet cell transplantation	Transplants
Kidney transplant	Transplants
Liver transplant	Transplants
Lung and lobar lung transplant	Transplants
Pancreas transplant	Transplants
Small bowel transplant	Transplants
Small bowel/liver and multivisceral transplant	Transplants
