

Interactive Voice Response

Some of our Provider Customer Service phone lines include an interactive voice response (IVR) service option.

This technology enables a computer to accept voice commands or touch-tone inputs and respond to your inquiries.

Note: IVR does not currently include benefits, eligibility for dental and vision; or our Asuris TruAdvantage phone line.

IVR:

- Allows you to quickly and easily receive:
 - Medical eligibility
 - Medical, dental and vision claims status
- Can provide information about multiple patients in a single session

By calling the applicable phone numbers listed on the back of this flyer, you will be able to access eligibility and claims-related information 24 hours a day, 7 days a week.

You have the option to exit IVR and speak with a Customer Service specialist during regular business hours.

Options

Use your telephone keypad to enter the touch-tone options or speak the voice options listed below.

Note: Information about multiple members or multiple providers can be obtained in a single session. When checking multiple members or using more than one tax identification (ID), the prompting options and order of options will change. Please listen carefully to the touch-tone or voice options.

Helpful hints

- You can say "main menu" or "help" at any time after your tax ID number has been validated.
- The system will only accept your tax ID number. Please do not enter your National Provider Identifier (NPI).
- If you know the option you want, you can key or speak it without listening to the entire prompt.
